4th National Level Project Competition "IEEE PROJECT EXPO 2019"

29th April 2019

The purpose of the competition is to aptly highlight various opportunities and challenges in all the engineering sectors, get insight into the future procurement plans and to examine the technology options and strategies. The main objective of the competition is to provide a forum to exhibit the technical challenges implemented in Electronics, Telecommunication, Computer Science, Information Technology and related areas. This creates a platform to share and exchange ideas of students from various Institutions, which also encourage their minds to actively involve, interact and to enhance their knowledge.
