In connection with the **Azadi ka Amrit Mahotsav**, office of the PSA and Ministry of Culture, Government of India is celebrating the week 22-28 February, 2022 as the glorious week of Science & Technology under the title "**Vigyan Sarvatre Pujyate**". The Ministry is organizing various programs in 75 different locations in India. As a part of this, **Department of Physics and Science Club of GSSSIETW, Mysuru** had organized **Special Lectures on Science and Technology** on **25th February 2022**.

The first talk was delivered by Dr. R. Kumar, Associate Director, DRDO-DFRL, Ministry of Defence, Government of India on "Food for armed force:DFRL's contribution". In his talk, he explained about food processing system particularly for Indian defence. He stressed on Space Food Program for upcoming ISRO's project Gaganayan mission. Followed by this he explained about the preparation, packing, consumption, storage and disposal method carried out by DFRL. The second talk was delivered by Mr. Anikethan, Co-founder and Chief Executive Officer, CoachEd, Bengaluru and his team members on "Challenges and Opportunities in Startups". In his talk, he explained about the meaning of Startups, difference between startup and company and scalability of startup. He and his team gave an overview of opportunities for young engineers in the field of startups in India.

Dr. M. Shivakumar, Principal, GSSSIETW, Mysuru had addressed the gathering regarding the importance of Azadi ka Amrit Mahotsav and its significance. He stressed that the economic growth of the country depends on the development of the science and technology.

During this event Heads, faculty members of various departments and First year BE students were present.
