National Science Day Celebration - 2024

Students involved during the Science Exhibition

Department of physics & chemistry, GSSSIETW celebrated National Science Day 2024 on 30th March 2024 with great enthusiasm and fervor. A science exhibition on working science models was organized. The event aimed to commemorate the discovery of the Raman Effect by Sir C.V. Raman and to promote scientific temper among engineering students. This year's celebration focused on the theme "Indigenous technology for Viksit Bharat," highlighting the crucial role of science in addressing contemporary challenges in the field of technology.

A number of students from various first year B.E participated in the exhibition. The judges for this competition were Dr. Jagadisha N, associate professor, department of EEE and Dr. G Manjula, associate professor, department of ECE. As the exhibition started, various students presented their projects. Models of Hydraulic lift, water alarm, Earthquake detection, LiFi (light fidelity), Holography and Eddy current were built and demonstrated by the students. Judges along with the faculty coordinators, went around looking at the different models designed by the students and assessed the descriptions given by the students.

At the end of the exhibition, upon careful inspection of the different models and projects, judges selected three projects. Sangam Kumari and Nirupama M P of first year CSE (F section)

were awarded with first prize, Swati M Pathak & Chandana S of first year AIML (H section) and Varshini K A & Nityahsree N of CSE First year (F Section) were awarded with thirds prize.

Prize winners of the science exhibition competition

Principal, Dr. M Shivakumar congratulated all the students who participated and won prizes in the exhibition. The event was coordinated by HOD's and faculty members of physics and chemistry department, GSSSIETW Mysuru.
