“Chat to code: Building a Mobile App with Claude”

08 December 2025

The Department of Computer Science & Engineering, in association with the GSSSIETW Alumnae Association, organized an online hands-on webinar titled “Chat to Code: Building a Mobile App with Claude”. The session aimed to introduce students to modern AI-assisted coding methodologies and guide them in building simple mobile applications using Claude.

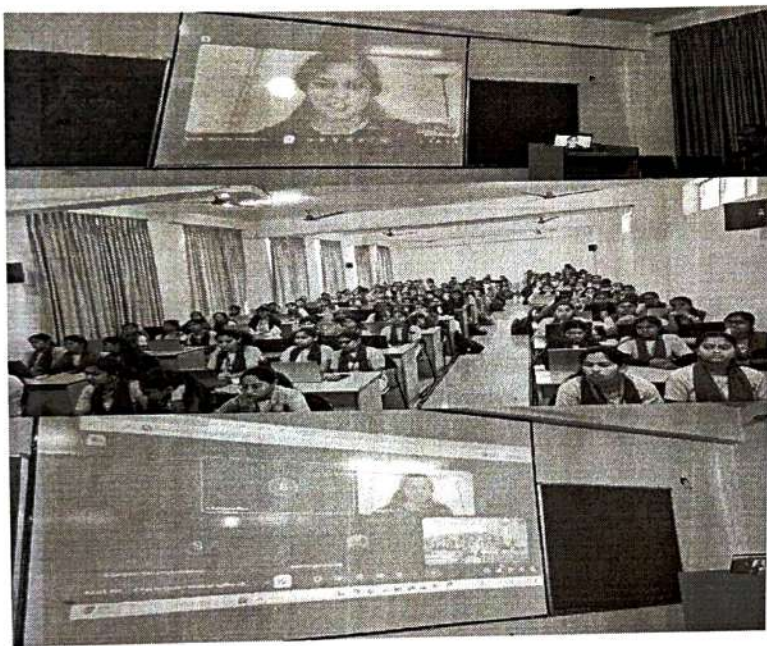

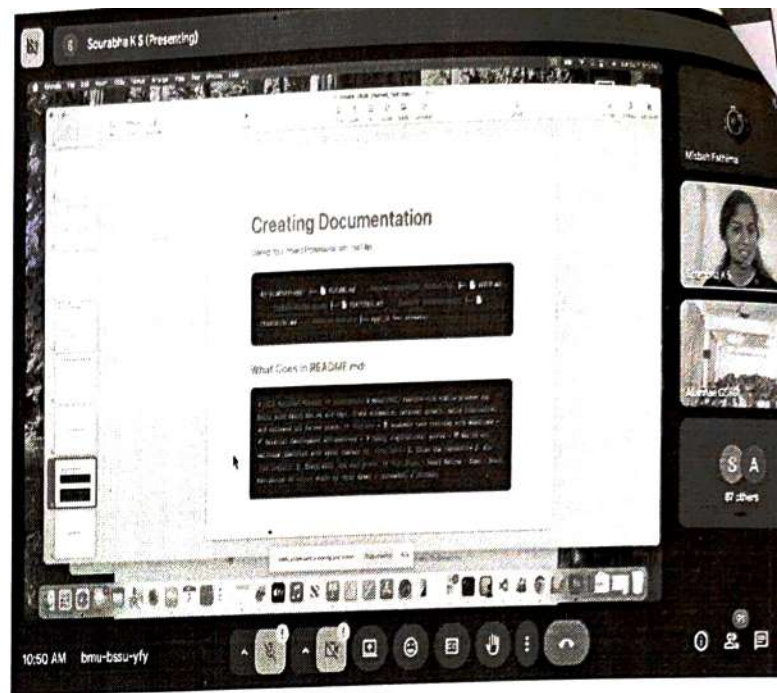

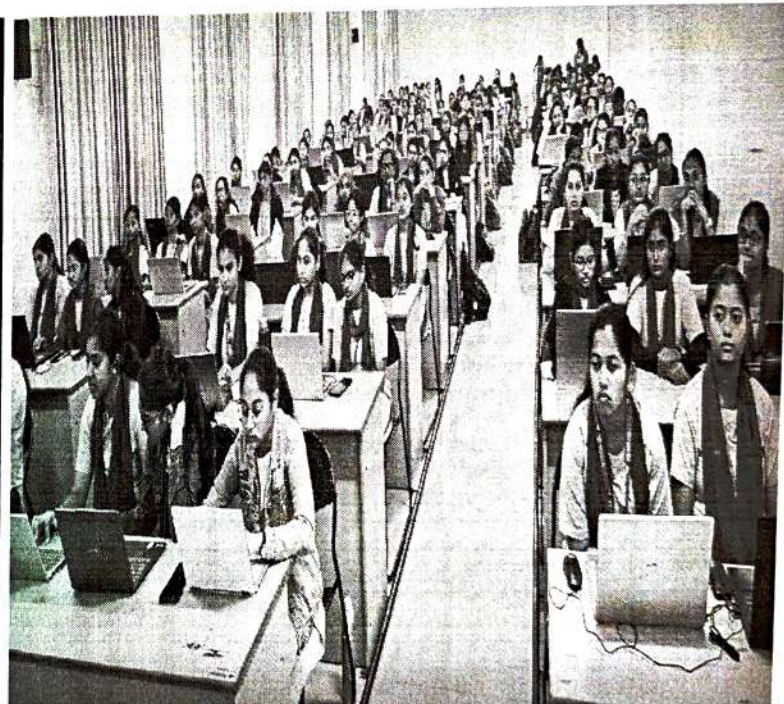

Figure: The resource person **Ms. Sourabha K S, Software Engineer at Inlumen, USA**, and a distinguished alumnae of the CSE 2017 batch joined the session through Google Meet, and the live presentation was projected for all students in the seminar hall(D Block D-015).

Around 138 students of CSE 3rd ‘A’ and ‘B’ section participated enthusiastically, equipped with laptops to follow the hands-on demonstrations. Ms. Sourabha provided practical insights into mobile app development, the role of AI in accelerating coding workflows, and best practices in software development. Students interacted actively and clarified their queries related to coding techniques, career opportunities, and project development. The session bridged the gap between academic learning and industry practices by demonstrating real-world tools. The event strengthened the connection between alumnae and current students, reflecting the values of GSSSIETW.

The session proved highly beneficial in enhancing students' technical skills and motivating them to explore AI-powered development tools. The event was successfully coordinated by Ms. Usha Rani J (Secretary, Alumnae Association), and Mrs. Shreelakshmi C M (Alumnae Coordinator CSE).

The session was followed by the interaction with the students. Finally, the session was concluded with a remarkable vote of thanks, thanking Ms. **Sourabha K S** for sparing her valuable time to enlighten the students regarding developing mobile applications with modern techniques.
