DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

NEWS LETTER 2024-2025 (EVEN SEMESTER)

ABOUT THE DEPARTMENT:

The Department of Artificial Intelligence and Data Science, established in 2022 with an annual intake of 60 students, is dedicated to nurturing skilled professionals capable of addressing the challenges of the data-driven world. The department strives to provide a vibrant learning environment that fosters innovation, creativity, critical thinking, and ethical practices, empowering students to become future leaders in Artificial Intelligence and Data Science.

The four-year undergraduate program is designed to build a strong foundation in data science, computing, and intelligent systems while equipping students with the knowledge and practical skills required to thrive in the rapidly evolving technological landscape. Students are encouraged to participate in mini-projects, hackathons, coding competitions, technical workshops, seminars, and research-oriented activities that enhance their problem-solving and analytical abilities.

Through service-learning initiatives and community-focused projects, students develop innovative, technology-driven solutions to address real-world societal challenges, thereby fostering technical competence alongside social responsibility. The department is committed to bridging the gap between academia and industry by creating opportunities for students to engage with experts from leading organizations. Regular guest lectures, technical talks, workshops, certification programs, and skill development initiatives expose students to the latest industry trends and emerging technologies.

Strengthening its commitment to industry-oriented education, the department signed a Memorandum of Understanding (MoU) with Avinya TechKnows, Bengaluru, on 27 September 2025 at GSSS Institute of Engineering and Technology for Women, Mysuru. This partnership aims to bridge the gap between academic learning and industry expectations, empowering students with the competencies required to thrive in the modern IT landscape.

VISION:

To empower women engineers with cutting-edge knowledge and skills in Artificial Intelligence and Data Science, fostering innovation, leadership, and ethical practices to drive transformative changes in society and industry.

MISSION:

M1: Provide a rigorous and comprehensive education in Artificial Intelligence and Data Science.

M2: Foster a culture of research and innovation among students and faculty.

M3: Equip students with the skills and confidence to take on leadership roles in their careers.

M4: Promote ethical considerations and the responsible use of AI and Data Science to benefit society.
